

High School Supply List

Put your name on things you want to get back if they get misplaced.

You will need to purchase these and bring them with you on the first day:

A Bible. I don't care what translation.

A student planner/assignment book. This can be a paper planner or an app on your phone, but it must be something I can see.

4 packs of College-ruled loose leaf paper – 500 sheets at least. You will give these to me when you come to school

Large box of Kleenex

Highlighter

Colored pencils (not crayons)

Pencils. You may have mechanical pencils, but even then you still need a couple of #2 pencils.

Pens, blue and/or black, for taking notes

6 Composition Books: college ruled. These are for taking notes in class. Because you will need to turn in the notebooks in at times, you will need a separate one for each class

3 Subject Notebook for History, college ruled

Eraser

Ruler with both English and Metric measurements

A pencil pouch or box in which to store pencils and other supplies

If you are in Geometry or Statistics you will also need a calculator. It should have buttons that say *sin*, *cos* and *tan*. You cannot use a phone or any other device as a calculator in class.
